CLUB

## “Together We Grow”

“**Together We Grow**” is our club philosophy and symbolises everything we are about. Our ultimate aim is to have the participants leave our sessions with a smile on their faces. There is no one individual more important than another. We all develop by helping each other and this is the greatest lesson we can implement as individuals, as a club and as a community. Our players & teams’ development is all derived from players, coaches, parents and friends in the community all pulling together in the same direction. Likewise, parents, coaches and community friends also grow alongside our players & teams “**Together We Grow**”. We aim to provide a platform to showcase their talents and express themselves creatively.

## Our values

- We provide safe and practical facilities to hold sessions, where participants can come and have fun. We strive to make sessions as fun and inclusive as possible
- We aim to bring communities together by giving people the opportunity to meet and socialise, while learning new skills for life and a love for the football sport
- We believe in providing quality and innovative sessions that will maximise participant’s potential, build confidence and enhance players’ performance
- We are working to create a platform for aspiring footballers to showcase their talents
- All our volunteers are DBS checked and are required to complete the FA Safeguarding Children’s course
- In each team the manager or coach are first aid qualified and hold a minimum FA Level 1 qualification
